ABOUT US

Our company is an authorized dealer of Organizers Direct, LLC and endorsed by Neil Balter, the leader in home organization. At the young age of 17, Neil founded California Closets® and with it established a new industry — custom home organization. In less than a decade, Neil grew his one-man operation to over 100 franchise locations in six countries before Williams-Sonoma Inc. acquired the company in 1990.

Neil's latest venture, Organizers Direct, is a supplier for quality custom cabinetry and organization systems for the home. Since its inception in 1992, Organizers Direct has selected only the most qualified dealers to represent its comprehensive line of products and design services for closets, garages, pantries, home offices and wall beds. All authorized Organizers Direct dealers are professionally trained in design, installation and customer service by Neil Balter and his Team at Organizers Direct.

The Wall Street Journal, Forbes Magazine and more than 1000 newspapers, magazines, radio and television shows have featured Neil's endeavors and chronicled his inspirational story. He has even made a few appearances on the "Oprah Winfrey Show."

We are proud to be part of this distinguished heritage and look forward to working with you. Our personal story follows.

CLOSET SOLUTIONS

Closets come in all shapes and sizes. Whether your space is large or small, square or odd-shaped, our designers will work with you to create the perfect space to meet your unique needs, style and budget.

**FUNCTIONAL
& BEAUTIFUL**

Storage can be a challenge. Our professional design consultants are trained to help you maximize your space. From practical to sensational, let us create a closet for you that is both functional and beautiful. Then sit back, relax and enjoy.

Above: A Coco wood grain finish offers a feeling of sophistication while adjustable shelves allow for changing storage needs.

Left: A built-in wardrobe provides elegance while protecting less-used, long-hanging items; crown molding adds a finishing touch.

always dreamed of...*

MODERN LUXURY

All of our closets are custom made using the highest-quality products. Our cabinets have a 3/4" thermofused melamine finish, which resists scratches and stands up to heat, moisture, stains and dirt more effectively than other products. We also offer a full line of high quality closet accessories in a variety of finishes to keep your belongings clutter free and easily accessible. All cabinet doors come standard with soft-close hinges.

CLOSET SOLUTIONS

Step into luxury with our exclusive Premier style cabinets. Our Premier doors and drawers are a 5-piece Italian-made work of art. Shown here with glass inserts, these Premier closets are simply stunning. Other optional highlighted features include:

- Velveteen jewelry drawer insert with sliding acrylic tray
- Solid birch drawer boxes with full-extension runners
- Oil-rubbed bronze handles, hanging rods and slide-out baskets
- Angled shelves with oil-rubbed bronze shoe fences
- Crown and base molding

ELEGANT STYLE

CLOSET SOLUTIONS

European style and function has made its way across the pond. Available in three colors, our new line of modern finishes have a slightly textured grain providing a rich look. Shown here in Concrete, these finishes are a natural companion to our Flat Front doors and drawers which are edge banded on all sides for a crisp, clean design. This contemporary look offers clean sophistication to any closet space.

SPACE SOLUTIONS**

Walk-In closets come in all shapes and sizes. With the aid of our 3D design software, our experienced consultants can create the perfect solution for your unique space.

REACH-IN CLOSETS

The most common closet is the standard reach-in. However, reach-in closets can create a storage dilemma for many homeowners. Let our designers show you some of our tricks-of-the-trade to maximize space in even the tightest of places. Options such as placing hanging rods on the side walls of the closet and adding slide-out baskets can create more usable space. Our adjustable shelves and hanging rods are perfect for kids' closets. Place hanging clothes and shoe shelves at lower levels for young children and easily move them higher as they grow.

ORGANIZED**

GARAGE SOLUTIONS

To protect your belongings from water, pests and debris, our garage cabinets are securely anchored to the wall creating a “floating” cabinet. Easily hose down your garage floors without damaging cabinets or baseboards. Rust-proof feet are also available.

Our innovative powder-coated cabinets provide contemporary styling with a high-tech design. Available in Red (above) and Granite, this powder-coated finish is the most durable, environment-resistant cabinet finish available in the market today. Because the cabinets are completely encapsulated by the finish, they are moisture, stain and chip resistant.

Left: Overhead storage racks are a perfect place to store seasonal items; Maple cabinets provide a fresh, clean look.
